Testimonials

“

What's most impressive is the guidance and exercises. In terms of achieving CQC well-led, it's all right there.

GP Partner

“

The best thing is that the areas of improvement have direct links to resources to aid improvement - we have found this to be a huge advantage to creating an action plan.

Practice Manager

“

Very impressive. I was like a kid in a sweet shop... there's so much on there! So easy to use and intuitive.

Practice Manager

“

It has been incredibly useful for leadership development and demonstrating to the CQC and our PPG that we work hard to look after our staff.

Practice Manager

“

It's an ideal PCN package in my view - the PCN / practices get the benefit of QOF, CQC, internal appraisal etc...
